The Biotechnology and YOU Camp is an opportunity for 7th & 8th grade students from all over KY to come together to learn how to investigate, explore and solve problems using the newest in scientific technology and learn about the many careers biotechnology can provide.

The theme for the camp will be a crime scene investigation wherein the students collect evidence, isolate and analyze DNA as well as figure out the principal suspect(s). The students will utilize standard forensics techniques to find matches with DNA from the crime scene with that of the suspect(s) and use this information in a trial for the perpetrator(s) of the crime.

**Who?**
Any boy or girl between the ages of 12 and 14 and in 7th or 8th grade in the fall of 2006. If space becomes limited, preference will be given to 8th graders. You do not have to be a 4-H member. The camp is limited to 40 applicants.
