Ohio River Valley Woodlands and Wildlife Workshop

Registration

(Indiana, Kentucky, Ohio)

This workshop will be held at the Campbell County Cooperative Extension Office, 3500 Alexandria Pike in Highland Heights, KY. The Extension Office is located on the right side of the road, one mile south of the junction of I-471 and I-275, Exit 74, on Route 27. Watch for signs.

8:15 - 9 a.m.  Registration (coffee, juice, doughnuts available) Campbell County Cooperative Extension Office, 3500 Alexandria Pike, Highland Heights, Ky

9 a.m. - 3:30 p.m.  Welcome, Concurrent Workshop Topics of Forestry, Wildlife and Alternative Forest Issues. Lunch will be included.

Workshop Topics Available in Concurrent Sessions:

Forestry

So You Want To Sell Timber? --
Billy Thomas, Extension Forester, Department of Forestry, University of Kentucky

Introduction to Woodland Management --
Kathy Smith, Forestry Program Specialist, Ohio State University

Crop Tree Release --
Jeff Stringer, Extension Forestry Specialist, Department of Forestry, University of Kentucky

How to Evaluate What’s in Your Woodland and Use the Information for Management --
Dave Apsley, Natural Resources Specialist, Ohio State University

Tree Planting Getting a New Forest Started --
Kathy Smith, Ohio State University

Wildlife

What’s Living in Your Woodlots: How to Manage Forest Wildlife --
Marne A. Titchenell, Wildlife Program Specialist, Ohio State University

Identification and Prevention of Wildlife Damage --
Brian MacGowan, Extension Wildlife Specialist, Department of Forestry and Natural Resources, Purdue University

Birds in Your Woods – Their Identification and Habitats --
Harmon Weeks, Jr., Professor of Wildlife Ecology, Department of Forestry and Natural Resources, Purdue University

Managing White-tailed Deer: Quality or Quantity? --
Tom Barnes, Extension Wildlife Specialist, Department of Forestry, University of Kentucky Extension

KY 31 Fescue -- Transforming the “Biological Desert” Into a Wildlife Oasis --
Clay Smiison, Kentucky Department of Fish and Wildlife

Alternative Forest Issues

Native Plants – What’s Growing on the Forest Floor? --
Sally Weeks, Dendrology Instructor and Arboretum Curator, Department of Forestry and Natural Resources, Purdue University

Forest Health - Watching for Woodland Insects and Diseases --
Amy Stone, Extension Educator & EAB Team Coordinator, Ohio State University

Estate Planning for Woodland Owners --
Tammy Cushing, Assistant Professor, University of Kentucky Department of Forestry

Sustainability Certification and Carbon Markets: New Opportunities for Landowners --
Lenny Farlee, Extension Forester, Hardwood Tree Improvement and Regeneration Center, Department of Forestry and Natural Resources, Purdue University

When ‘Green’ Isn’t Good --
Tim McClure, Forest Health Environmental Scientist, Kentucky Division of Forestry

What a rewarding job...being a forester! You're outside all day and you help landowners. However, most of us have not chosen that path, but we all enjoy the benefits a forester provides - improving and maintaining a healthy and profitable natural resource of timber, while protecting our water resources and providing for wildlife and outdoor recreation.

As a manager of your woodland and wildlife property, it is important to obtain as much information as possible to make the correct long term, as well as short term decisions.

The Ohio River Valley Woodlands and Wildlife (ORVWW) Workshop to be held on March 15, is designed to provide YOU, the woodland and wildlife property owner, with forestry and wildlife related educational opportunities. This one-day workshop will provide you with forestry and wildlife experts from Indiana, Kentucky and Ohio who will address the questions and concerns that you have been confronted with in the management of your properties.

Everyone has a different approach as to how they manage their land. Many times during our management discussions we begin asking ourselves the question, "What's next?" By attending this workshop you will have the opportunity to also meet other woodland owners who have similar interests as you.

Make sure to come early and grab a cup of coffee, juice or tea and something for that sweet tooth as several resources will be available to you before the workshop begins. How are your tree identification skills? Join us before the workshop by visiting www.ukforestry.org and take our tree i.d. quiz. Make sure to bring your answers with you. If you don't have computer access, we will be offering the same quiz on March 15!

Each participant will also go home with something to “plant for the future”.

The committee members from Indiana, Kentucky and Ohio would like to take this time to invite you to attend this informative woodland and wildlife workshop.

For more information, visit www.ukforestry.org and click on the green New Information icon.

“THE VAST POSSIBILITIES OF OUR GREAT FUTURE WILL BECOME REALITIES ONLY IF WE MAKE OURSELVES RESPONSIBLE FOR THAT FUTURE.”
- GIFFORD PINCHOT, FIRST FORESTER FOR THE BILTMORE ESTATE IN ASHVILLE, NC AND FIRST CHIEF FORESTER OF THE US FOREST SERVICE
