Educational programs of the Kentucky Cooperative Extension Service serve all people regardless of race, color, age, sex, religion, disability, or national origin.
The Advanced Grazing School is a one-day course designed to provide participants in-field learning opportunities and see forage management and grazing systems first hand. This program is meant to be used as a refresher course and to go more in depth on important forage and animal topics. Updates on new research through the University of Kentucky will also be presented by UK specialists.
